One of the great unings about Canada is Canada Savings Bonds, and this year's Series is the most exciting yet. Interest starts at 5½% a year—the highest starting rate ever on a Canada Savings Bond—and goes right up to 6%. Over the 13 years to maturity the true average annual yield is 5.48%.

of the great things about Canada is Canada Savings Bonds,

Best of all, Canada Savings Bonds have a wonderful compound interest feature which pays you interest on your interest. Take full advantage of it and you will double your money.

As always, Canada Savings Bonds are instant cash. They may be cashed at any time for their full face value plus accrued interest. They are easy to buy for cash or on instalments. They fit all savings budgets—from \$50 up.

And, for the first time ever, Canada's most popular personal investment may be purchased by businesses, churches, charities, clubs, and other organizations. Another first: the limit per holder for this Series has been increased to \$50,000.

Backed by all the resources of Canada, Canada Savings Bonds are a great way to save. Buy yours today and double your money.

Observers say the back-up men for ev-y other position in the club are as good as one who made good when plugging the sies caused by injury.

This is the club that brought St. Louis its eleventh National League pennant and its first 2,000,000 season attendance.

"Meet me in St. Looey, Looey," Me-thinks you'll see a 1967 world series winner.

It read, "Records go by the board in any championship series. This Dodgers-Or-ioles series is a new set of ball-games. It is what they do here that counts — not any dusty record book."

Unk Slush says "No wonder his hair won't grow. When they dished out the fer-tilizer they put it in his typewriter instead of his cranium."

PROCLAMATION ELECTORAL DISTRICT OF OUINTE

Public notice is hereby given that in obedience to Her Majesty's writ to me directed, and bearing date the 5th day of September, 1967. I require the presence of the voters at the Sidney Centennial Hall in the County of Hastings on the 3rd day of October, 1967, from 1 p.m. until 2 p.m. (Standard Time), 2 p.m. to 3 p.m. (Daylight Saving Time) for the purpose of nominating a person to represent them in the Legislative Assembly; and notice is further given that in case a poll is demanded and allowed in the manner by law prescribed, such poll will be open on the

Seventeenth Day of October, 1967

from 8 a.m. until 7 p.m. (Standard Time) and 9 a.m. to 8 p.m. where Daylight Saving Time is observed

And further, that at my office, 191 Front St., Belleville on the 31st day of October, 1967, at the hour of 1 p.m. (Standard Time) I shall open the ballot boxes, add up the votes given for the several candidates and declare to be elected the one having the largest number of votes.

Of which all persons are hereby required to take notice and to govern themselves-accordingly. Given under my hand at Belleville this 15th day of September 1967.

Expo Marches On
Time is running out on Expo 67.
Scheduled to conclude at the end of this
month, the great exhibition is still drawing the
crowds. Because of the Montreal Transit
Commission strike and cool weather, visitors,
nevertheless were not quite so numerous at the
weekend.

The slackening pace was reflected by the fact that entry to the Man and His World schiblion, which usually boasts a long lineup, was just a matter of walking in.

A young French Canadian hostess looked unhappy as people fitted past the exhibits. Her individual displays, and sedom ask questions, individual displays, and sedom ask questions, individual displays, and sedom ask questions, because hands. vamed when asked for an explanation of some automated equipment.

The interesting thing about Man and his World of course is the fact that the exhibit poses some interesting questions of: its own. They would do justice to any school or university examination paper—and doubtless have been 'borrowed' by many a tutor for this reason.

Man and his World makes the declaration that communication is vital between individ-uals as it is with nations. It notes that the uals as it is with nations. It notes that the "benefits of progress are more apparent collectively, that are a group we live more securely and productively." And in a passage reminiscent of the adage that the "problems of the world are the problems of the spirit." It says: "The like of progress are more apparent individually. Some of us suffer because of change."

Technology is behind much of this change.

What doyou have to be thankful

A great deal we hope.

Because we at A&P have much.

We're thankful for God's blessings on our great country.

We're thankful for the free enterprise system that has allowed us to serve you for more than 40 years

We're thankful, that again this year we'll be privileged to play a part in making Thanksgiving feasting a memorable occasion for so many.

But most of all we're thankful for you...for your patronage and loyalty.

When you come in we hope that the warmth of our service, the completeness of our selection and the dependability of our values will tell you better than words how thankful we are.

Bums or Thinkers?

A letter on this page today says society desperately-needs its oddballs and original thinkers. Agreed — and there is no doubt that beneath some of the shaggy locks are qualities that can move the world.

However, in their apparent war against formity, against the sort of society typified by the 'man in the grey flannel suit' — in short against the Establishment, the hippie fraternity who are in the van of this

movement are going to extremes.

It is nothing short of mental aberration that inspires the people of this cuit to lose their self-respect (for that is what it amounts to) to the point that they no longer conform even to elementary codes of cleanliness. If these youngsters are 'flower-children,' then and the fragrance and beauty they

typify are denigrated by this term.

Most of these young people profess to be pacifists and are constantly babbling about 'making love and not war.' Yet II we are to believe the sort of reports that emanate from the hippie scene from Toronto to Vancouver to San Francisco to Katmandu in Nepal their concept of 'love' is scarcely one that a concept of 'love' is scarcely one that a responsible society would care to adopt, even in today's liberal world.

As for war, this is virtually the natural state of mankind, whether it exists simply on

the basis of friendly rivalry and competiti or in the extreme form of outright conflict. The history of the universe is one of war and

on m. we extreme form of outright conflict. The history of the universe is one of war and rumons of war — and as Mr. Rose suggests, we had better believe that too.

1. The history of the phenomenon of any age — and the fundern peneration in or out of school for the most part look vary attractive as they go about their daily tasks. Color and good taste abound, and whether a boy choose to wear blue Jenas and a bright lot and a get in militakirt and a reseater better than the second of the

New Jail

With the opening of the new Warkworth medium security institution near Campbell-ford scheduled for October 14, it is pertinent to reflect that while occasionally we hear of possible reforms in the institutional or prison system in Canada, this country sends some 240 persons to prison per 100,000 members of the This is more even than the United States,

with its rising crime rate — and according to one authority four or five times the ratio in

"Other countries."

The statistics were given in a recent blievision interview, but the person being interviewed did not specify what countries he was referring to. Silli, the fligures should give rise for concern. As the speaker observed. Cananda is fair from being a violent society despite the occasional incidence of homicide or violents on the property of the p

despite the occasional incidence of homicide or violence in one form or another. Why then are there so many people in fail? Is it because so many are sent there on conviction over incidents that may have been no more than misdemeanors?

It's nice work, making a whisky that tastes as easy as 5 Star. But it's no easy job.

It means selecting very special whiskies from our five distilleries across Canada. (Only Seagram's has five, by the way). Then blending and re-blending them to get is the taste worth all the trouble? Very easy for you to find out.

How Calvert found a new way to make rye incredibly smooth.

The name of the rye is Grand Prix.
We made it incredibly smooth by
aking it dry.
And we made it dry by discovering a
ew way to make rye without any cloy-

eetness, makes Grand Prix a full-bodied smooth you can actually sip it

atraight. And like it.

Nobody ever made a rye as smooth as
Grand Prix before because nobody ever
knew how. It took Calvert ten years to
do it, and naturally our Master Blender
is pretty proud of it.

But try it yournell. In ten seconds
you'll know why he's so proud.

Calvert Grand Prix. The world's first dry rye.

Urban Laboratory

The site of Expo 67 in Montreal could become a "laboratory for urban living" and for experiments aimed at solving the growth problems of the cities of the world, according to C. D. Vaughan of the firm of Toronto architects which worked on the design of the

architects which worked on the design or tare Canadian paylidion.

The firm's plans for Expo — outlined elsewhere on this page — are significant in a world of planned obsolescence. Expo has almost had its day, and then great minds and their technological ally, the computer, will go to work on themes for Expo 70 in Osaka, Teans three sears from now.

to work on themes for Erpo 70 in Oseka, Japan, three years from now.

But there is the old saying that the more things change the more they remain the same — human nature for instance, And nowhere is this more ably demonstrated than in tac Ostatrio pavillon at Erpo.

Here, as roue enters the pavillon, are those live statements of the contractors — Mr. Business, Miss Science, Air. Sulfuel Labor, Miss Daulines, Miss Science, Air. Sulfuel Labor, Miss

Business, Miss Science, Mr. Skilled Labor, Miss Arts and Mr. Sports. They engage in a spries of brief plays, in one of which Miss Science claims that "This is the age of science." To which Miss Arts, in true womanly fashion replies: "And it's beginning to show...!"

Technology or not, human nature will always be the same!

He played all his minor lockey in the motor city catching the eye of professional acousts. He made the junior "A" cith there and later moved in Barrie when the franchise shifted. He played three years with the Flyers junior "A" spend inter going to Nisgara Falls.

After a year at the Falls, the Boston Brains brains decided Ed was ready for the sig time. Like Hall, Howe and a few others he jumped from junior ranks to the National League.

Ed's tacties differed somewhat from the bull-decing action of the Detroit shadow Brian Watson, but Hull admits that the Bruin star did as effective a job.

"There seems to be more balance with e chib this season" he says. "There is a wason. This may be due to the new general nanger Wilk Schmidt, a highly popular guy th the Beantown squad."

"He has instilled a new feeling in the ub", Ed said, "Then there's coach Harry nden who has the respect of all players."

Ed is associated with a brewery in the off-ason and manages to get in a lot of golf. has a four handicap.

The 27-year-old husky smiled.

"With the new spirit, new mood and new layers we should be up in the top four. Hew-err with the other five clubs we'll be in first ace — before the season starts."

Heroes Called Shots In Pre-Game Quips; Not Funny For Cards

BOSTON (AF)—Cart Yas-trzenski and Jim Loaborg, the big men on the Boston Red Sox, are a couple of pleasant fellows who like to kid with people, even going so har as making predictions in just. Now their crystal ball fore-casts are virtually coming true in the World Series with St. Loads Cardinally.

Londorg just massed on his prediction, losing a no-hit bid on Julian Javier's two-out double in the eighth inning. He had to settle for a one-hitter, only the fourth in World Series histo-

"The no-hitter is the one goal that has eluded me during this fabelous season," the lanky hurler said. "I pitched in the All-Star game, I wone 20 and I pitched in the World Series. I'll yet that no-hitter some day."

Lonborg had a no-hitter foor 2-3 innings against Cleveland earlier this year. That bid was broken up by Duke Sims.

In 1956 I was assigned to cover the revid series — a salway affair — in New Fork with the Brooklyn Dodgers and the reed Yankees at each other's threats.

I had mingled with the Brooklyn faith-ful in venerable Ebbet's Field when they shrilled in "cherce" Brooklynese "Molder d' Benn" and "Kill the Johl" when they quen-tioned on official decision.

It was in the fifth game of the series with the count 2.2 that the heart-throbbing diamond drams was exacted.

A tall pitcher who had been clobbered 12-8 in his first effort of the series had as-tended the fam with his no-delivery style of hurling.

The morning of that historic day in nkee Stadium he was seen going to the lpark at 5 a.m. It was said he went to bed hree of the clock.

The sixth was another 1-23 for the pit-cher. In their half of the inatags the Yank-ees added a run. By this time everyhedy — even the hardfolded Dodger faus were pull-lag for the life pay. They knew what was going on. half a Dodger hit decorated the accreband.

Be sispood the Dodrers cold again in the eighth. Then it was the ninth. Later the pitchers jaid "yw so seared in the ninth is couldn't stop thinking." The crowd seared as Cut Partille found off two pitches then filled to Hank Raser in right. Bay Charmella after fooling twice bounced out to Hilly Martin.

This was the big moment. The last man up in the ultih and history in the making. Dod-ger manager Walt Aliton called on his acc push-hiter pale Michell is break the spell. He went in to hit for the pitcher Sal "The Barber" Maglie who had given up just two runt on fire hits.

Plaie Umpire Babe Pinelli who was call-ing his/last game watched the pitcher lake his sign. He saw the hig arm come up and the pitch come in. Mitchell just atoud there, leaking ios. Vip went Pinelli's arm and into history went bein Don Larsen.

He had pitched the first and only per-fect game in the world series history. He still helds that record although it just evaded belag equalled by Jim Lonberg of Sosion Thursday night.

It was reported Larsen didn't sleep a

One of the great things about Canada is Canada Savings Bonds, and this year's Series is the most exciting yet. Interest starts at 53% a year—the highest starting rate ever on a Canada Savings Bond—and goes right up to 6%. Over the 13 years to maturity the true average annual yield is 5.48%.

Best of all, Canada Savings Bonds have a wonderful compound interest feature which pays, you interest on your interest. Take full advantage of it and you will double your money.

As always, Canada Saving Bonds are instant cash. They may be cashed at any time for their full face value plus accrued interest. They are easy to buy for eash or on instalments. They fit all savings budgets—from \$50 up.

And, for the first time ever, Canada's most popular personal investment may be purchased by businesses, churches, charities, clubs, and other organizations. Another first: the limit per holder for this Series has been increased to \$50,000.

Backed by all the resources of Canada, Canada Savings Bonds are a great way to save. Buy yours today and double your money.

Export Drive

The director of Canada's external aid offices, Maurice F. Strong, has been quoted as saying Canadian business must be more international in its outlook.

This is a recurrent theme of course in this country's affairs. We must produce more and sell more, develop new markets and make Canada's name and trading acumen better

As a side benefit Canada can contribute much to regions like the Caribbean. Here Canada is well-known already, through trade and educational development. For example it sent equipment and teachers and established schools in the islands. It has had a hand too in the development of the University of the West Indies

For some years now it has been the practice of the Ministry of Trade and Commerce to bring Canada's trade ministers to Ottawa from bring canada's trace ministers to Octawa from their posts around the world for interviews with businessmen seeking new markets for their products. These have been a most successful venture and have done much to improve our trading position.

Improve our trading position.

Just now there are signs that we are extending our markets even farther affeld, or at least strengthening contacts in existing trading areas. For instance a Tobyo report notes: that I canadian businessmen are considering joining the Pacific Businessmen's Association made up of australia, New Zealand and apan. This could benefit not only ourselver but in particular New Zealand which is currently undergoing a recession causafully yet a procession causafully yet in mount port worth. York

mainly by a drop in wool exports.

Meanwhile, in Toronto next month, York
University school of business in co-operation
with the Government's External Aid Office
and the Department of Trade and Commerce
is sponsoring a two-day seminar to discuss
business opportunities in developing countries
and the advantages to Canadian businessmen
with regard to foreign ask

Among the areas where a potential increase in trade is envisaged are the Caribbean and Latin America and they will be discussed at the seminar. With a total of \$8 billion in foreign seminar. With a total of \$8 billion in foreign aid being provided by the Western world, the opportunities for Canadian businessmen in this sphere are obvious. Now that we are lagging fin this regard, for Canada's foreign aid program will expand from \$300 million this date to \$570 million in 1970.

November 6-7 is the date of the Toronto seminar, in the Royal York hotel. It should result in further impetus being given to Canadian exports and to the opening up of fresh markets.

The Twilight World

When the RCMP goes so far as to warn Toronto Metro parents and school officials that the use of marijuana by teenagers is increasing rapidly, it is time to take note and try and discover just what is happening in our increasing rapidly, it is time to take note and try and discover just what is happening in our society that, gives rise to such negatively-dangerous pastimes.

One Toronto newspaper has interviewed a group of teenagers, boys and girls, and learned that some of them had been on "pot" since they were in Grade 9.

HARRY ZUZAK is a civil engineer and an Associate of C. W. Pool Consulting Engineers in Regina. Harry specializes in the planning of parks:

"As the work week gets thorter, people have more time on their hands. If they spend that time out-of-doors, it's better for their health, relaxation and general well-being.

"Of course, for a park to be successful it has to be planned methodically. Financial, economic, sociological and geogra-phic factors have to be taken into consideration. For instance, there's no point building a park if people can't get to it easily.

I knew very little about life insurance until Art (his condon Life representative) sat down and explained how it vorks. He went over all the details from A to Z in a factual

manner. I appreciated this because as an engineer you're taught to thank logically, and Art mode a presentation that "well, I'd look at several other life including the look of that term to another Johlee, I'll probably change the other half in the not year or two."

By Geo. H. Carver Sports Editor

I do not remember how many years have passed since I first glimpsed a blonde-halr-of mospet duzzling minor beckey observers with his proced and receing ability on the ice in Memorial Arena.

Unlike other hockey stars of the past of present, Bobby Hull's whole life is not attred on the sport. When the whistle stands "Tapi" on present lockey activities re the Black Hawk star he doesn't dream stammer vacations, balany days on the golf his or sunning on southern heaches.

Bobby probably learned early in his hockey career, that the life of a professional athlete ends when men in other phases of life are in their heyday.

Superstars in any phase of sport are born, not made. Hall it use of these. He is sinclust to Buc extreme when speaking of his achievements on the ice. In his goest-speak, and appearances his personality reaches across and beyond the table to the farthest corners of the room but it is not propelled with self-glarification recketty.

Is his climb to the heights Hull learned many things and excelully stored them in a reatentive mirmory. This is clearly evident in the later chapters of his book in which he gives nosse sound advice to minors and par-

Hull points out the value of the parents to the hockey stars of the future. He was blessed with a sport-minded family espec-tally "Dad" who was no mean player him-pelf in his early days.

He weaves a detailed pattern of his life since he first donned skates. A natural abil-ity and a willingness to absorb instruction and advice eased his way to hockey's upper brackets.

Our town's got everything ... fine shops, handy services, helpful people. And the one place to find them all is in your Yellow Pages. Take, for instance, all the things to do with office equipment. Your Yellow Pages can help you buy or rent office furniture or equip your office with shelving, partitions, stationery, or business machines. Whatever you need, your Yellow Pages can help you find it quickly and easily ... whether you're outlitting an entire office or just buying a simple card file like the one illustrated. Yes, it's good to get in the Yellow Pages habit ... everything's here in town.

Expo Opportunity

Transport strike or not, the crowds at Expo on Thanksgiving weekend were among the largest the exhibition has witnessed. And with Princess Margaret and Mrs. Jacqueline Kennedy there too the island sites were as usy as ever.

The thought occurs that with so little time left, there must still be countiess people who for one reason or another have not had an opportunity to attend this once in a lifetime exhibition.

The older folk for example. Some weeks ago a party of youngsters from the quinte area was taken by special train to Expo. The visit was made possible by the community services organization and provided a thrilling day for young people who otherwise could not have attended.

Who cares if the Berries in our Blueberry Pie are Wild?

Some people may not care ... but we care.

Your grandmother's classic blueberry pies were baked with juicy, wild berries. Not with today's pulpier, cultivated ones.

So, we're stubborn, only wild berries get into our Jane Parker Blueberry Pies. In fact, we care so much about such things, we've made just one big change in the classic recipe; we bake only wild berries that are Canada No. 1 Grade!

We've been in the baking business for 40 years. And that's the way we are about all our baking.

To celebrate our 40th anniversary as bakers, this week, we're featuring Jane Parker Blueberry Pie at a price that's as wild as the berries ... 49f.

If you want proof that caring this much counts, try a Jane Parker Blueberry Pie this reek.

A total of 60 serviced lots for house is being made available under the H.O.M.E. (Home Ownership Made Easy) Land Development Plan in the Burttdale Heights Subdivision on a Psale or rental basis.

Complete details on prices, terms, and lot local tions may now be obtained at the Municipal Offices, Trenton, Ontario.

Monthly Rentals from \$16.50 - \$19.50.

Lots are available to individuals, home-building co-operatives, and, in blocks of 5 to merchant builders.

Merchant builders will be required to make a deposit on each lot, pending satisfactory per-formance of all terms of the H.O.M.E. program.

NOTE: There are no income restrictions connected NOTE: there are no income restriction consistent with either the rends or purchase of these lots. However, there is a top limit of \$15,000, on the cost of homes which are to be built thereon, and those who acquire lots under this plon will be responsible for arranging any financing necessary in constructing a dwelling.

Early in the year Brock's brother Curtis, 24, was in a southern hospital fighting a looing fight against a disease called edema of the brain.

For three weeks, Lou, the older brother, spent every day at his bedside praying for a miracle that did not happen. The younger man died, unconscious most of the time.

Once when he opened his eyes and became con-scious he saw brother Lou and said in his last spok-en words, "Low, I. hope-you guys win the pennant this year, and I hope you have a hig year." He passed away two days later.

Relating the story, Brock said "I decided right then that this year would be for Curtis, not me and that I would have the higgest year of my life. He shouldn't have died — he never had a chance — hat this year and today were for him."

Bob Gibson too had inspiration plus sheer quis and courage. He coined as tough as they manufacture haseball players and this was proven last July when he Cards were playing the Pirates. Roberto Clemente hinsted a siggling liner that exploded off Gibson's leg just north of the ankie. He tossed Clemente out at first, then said his leg hurt.

The trainer rubbed it and Gibson went back to mound. He retired the first two batters and col-sed. All that was wrong was that his leg was brok-

While he developed late a fine young albleto he wanted an education. He decid-ed that he could extract tensits and appen-dices, with an much destretity as he placked spods from the ground and accepted an ath-lette scholarshy at Notro Dunc.

Perhaps Papa Yar had never been given r opportunity to enter the bount haby reue — but he hnew all the answers and cided to set as the moderator for a panel scouts and Junior Yar.

The story goes that Pop Yaz and Yaz the Younger sal around the lable la the parlor with the scouts. A lot of mental prices play-ed tag in the cruslums of the talent-scekers, but Pop Yaz had made up bis mind.

The bidding started but Pop never en-iered the conversation. He sat at the table ligging potate dirt from under his linger nails with a paring halfe.

Finally he held up his hand, parked his on the table and stated calmly "Anyone isn't willing to start at \$50,000 might as cash out of this game."

Pup's plan worked. Half the scouts sud-dealy remembered they had a dinner date observer and left the room.

Yar, a Boston story says, is a stickler for sarterial aplendor. He garnishes his nat-mral physical heauty "with the best clothes monty can buy" — and believe it or not — has special harbers who trim his tocks for a mearly \$7.50 e clipping.

Lofty Border Blooms

Twenty to 30 inches is the normal height for the scariet flowered Salvia, in popular use by flower lovers for dressing up walk borders and flower boxes, but Lindaws Bird, 178 Many Street, has them more than five feel high. In fact a few plants soar to almost seven feet. Mr. Bird is at loss to explain the reason for the abnormal plant growth—

Ontario Campaign

If the people of this province were hungry and suffering from deprivation in a general sense we could expect perhaps a much greater reaction to the current election campaign. Times are still good and should remain so for the forseeable future. These are the conditions that breed an atmosphere of unconcern and

apathy among the electorate. People have become so accustomed to sperity that any serious misgivings about type of Government in power appear gligible. And this even though the prosperity negligible. And this even servent to some extent is of the artificial sort former Bank of Canada governor James Coyne had in mind when he said; "Canadians are living grandly beyond their ineans." Life in Ontario today is scarcely synonymous with a Govern-ment that is a "cold and bare . . . faceless

That is Liberal leader Robert Nixon's view the Roberts administration, the current representatives of a Conservative party that has been in power in the province for more than two decades.

than two decades.

Opposition spokesmen are hammering away on a number of issues. Housing . . . pollution . . . rural development . . . conditions in northern Ontario. These are matters being

Ian Reilly, NDP candidate for Quinte, has complained of "skyrocketing rents and prices and shortages," and criticized the raising of the NHA interest rate to a maximum of 814 the NHA interest rate to a maximum of 8'4', per cent. He claims that in the past eight months the Government has produced only 1,149 housing lots out of 20,000 promised. He says his party would establish a Department of Housing and Urban Development with a

Premier Robarts in his own campaign has defended Government housing policy. He says the Government seeks to create enough housing at reasonable prices and that the new HOME program is helping in this regard.

Tory candidate Dr. R. S. Potter's answer

Tory candidate Dr. R. S. Potter's answer to charges of neglect of this area has been to point to the highways, schools and the establishment of a new community college. He says local industry appears "enthusiastic" about the Government's announcement of an

about the Government's announcement of an industrial incentive program.

Liberal candidate Donald Joss sees it differently. The Government, he says, is gweeping the dirt under the rug in the last week of the election." Mr. Joss also accuses the week by the election." Mr. Joss also accuses the Government of failure to take adequate steps to curb pollution. Liberal leader Nixon says the problem has reached crisis proportions in the Great Lakes and he proposes a top level conference of provincial premiers and U.S. governors to tackle the issue.

To this, Mr. Robert has and: "We have a pollution control program throughout but province. In the past ten years, at various levels of government we have spent about \$100 or course we can clean up the Basy of Quinte, but I couldn't say exactly,how long lively like a deviating of the area of the grant development are other plants on the Libertal platform, and the plants on the Libertal platform, and the plants on the claim of the plants on the plants on the Libertal platform. They were still a good five years or so away from the magic age of 21 — the so-called age of discretion, but the two attractive young ladies walking along Front Street yesterday were right up with things.

Talking about boys... the next school dance...school maybe? No. none of these things. Rather, they were talking about the provincial election, and the local candidates.

They crossed the street and stood talking further before heading for the footbridge across the Moira where incidentally one enterprising candidate has anchored a couple of signs. Yes, they're right on the river bed, and while one has tipped over the name catches the eye of people on the bridge.

The two young students are not yet of voting age, but they belong to Canada's vast and important segment of young people. They are in the van of Canada's future.

The federal and provincial governments are at grips with inflation. For his contribution, the federal minister of finance has just enunciated Ottawa's financial policy and predicts that next year's budget will provide for a substantial provide for a substantial provide for a substantial provide for a substantial sequence of the properties of the provided for a substantial provide for a substantial provide for a substantial provided for a substantial reduction in expenditures to reduce the deficit. . . .

According to Mr. Sharp, the country's key problem in the immediate future is to find a way to stabilize prosperity.

The minister space of a campaign of persussion which the government could undertake to have unions and employers put a check on salsalaries paid to office execusalaries paid to office execu-tives. The same suggestion could apply to the personnel of various governments. Some civil servants have attronomical salaries. The more government; services, the more civil servants there are, and the higher go gov-ernment expenses. How much must be added to the expense a cco un t for the increasant coming and going of minis-ters and civil acreants from one country to the other, from one continent to anoph-er? Cultural and other exchanges also add to the bill. It is a question of finding the golden mean, so that the the golden mean, so that the Laxpayer does not constantly find himself seated between two chairs. The Southland may have given hirth to the blues; London the miniskirt and Toroute the Argonauts but where do you think the world series was spawn-ed, christiened and haptised?

Don't ask the question of any baseball-wacky Bostonese or he'll brand you a nitty alacampoop from the Black Hills of Missouri that spawned the black-hatted villains that robbed hanks and trains— and the white-hatted good guys, they call the Card-

And he won't lose any time telling you that the world series was bred and horn right there in his

mome town.

He would be right, The first series was played in the old Huntingdon Avenue Grounds October 1, 1903. The Bostou team was called the Americans who were beaten by Pittidough 7-3 in the first game but went on to grab the series.

And the Boston term inaugurated that rare ser-ies occurrence of behind being three games and win-ning the next four to cup the honor and glory. Nine years later they won an epic 43 series from the Glants.

BUI Carrigan's great defensive position from took the series again in 1913 and 1916. Grever Cleveland Alexander won the first 1915 series games at Philadelphia and again the Boston team came back to win four games in a row.

The Dodgers were beaten the next year 4-1 by the Sox with Babe Ruth hurling and winning the sec-ond game 2-1 in 14 innings. The Sox won the clinch-er 4-1 with 42,600 filling Braves Field and 10,000 turned away.

World War One shortened the 1918 series open-ing with Boston facing the Cubs in Chicage, Ruth won the fourth game 3-2 completing 29 consecutive score-less innings of pitching.

The Cubs finally got to the Bambino because he had injured a finger scuffling with a team-mate on the train from Chicago.

It was in this series that the Red Sox had another "first." They set a record with a players' strike, be-lieve it or not-

After the Sox had beaten the Cubs In six games, the boys got together and demanded a financial re-port. When it came it revealed the players had only been allotted \$1,108.

They got together and told "management" that was more pay or no play. The game was held up bour before the brass voted an increase.

It was another 28 years before the Red Sox reached the final round. In 1916 under Joe Cronia they breezed to the pennant and then — against the Cardinais — won each odd game of the series until the seventh.

They won the opener in St. Louis on Rudy York's 10-inning homer. They won the third 2-0 on York's three-run homer and Dave Ferriss' six-hitter; won the fifth 6-3 on Joe Dobson's four-hitter.

The Cardinals won the even games 3-9 behind Harry Brecheen; 12-3 on a 25 hit bembardment at Fenway Park behind Georg. Munger and 4-1 again behind Brecheen. The seri-s was even.

Then came the most dramatic play that ever won a series final.

The Red Say Jeff 1-8 in the deciding game at St. Louis, but the Cardinsis tied it in the second and went ahead 3-1 in the fifth against Ferriss.

Dom DiMaggio's two run double to right tied the score in the eighth but in the eighth Enos "Country" Slaughter pulled off the play that is still talked about in baseball Boston.

smooth as Gold Crest, you've got something good going for you. Because everybody likes it. And since a whisky like this doesn't happen very often, we've decided to celebrate this Centennial year by putting Gold Crest up in a new kind of decanter. Tall and cylindrical. Clean, clear, and slim. With a cut glass sunburst in the base. It lets you show off just a bit. Because it looks great, and tastes so smooth and light, It's the kind of whisky that goes well at any kind of party. Try it at your next party and see. Gold Crest. The Party Whisky.

Pier Glass Is Too Difficult To Use in Today's Homes

By RALPH and TERRY KOVEL.

The pier glass is no longer
in popular favor because it is
difficult to use in our low celling homes. A true pier mirror
is a long narrow mirror made
to fit between two high windows. It was first used during the time of William II. The
mirror stayed in fashion
through the 18th century. It
was almost always placed
above a table which was logically called a pier tiable.

The pier glass is too large for today's modern 18th century. This gilt framed mirror was made in 1720 by John Gumley of the Royal Exchange

. RESPONSIBILITY

The stuff that makes leaders, that's what a newspaperboy is made of. He's a hard-working youngster who's accepted a challenge. Fair weather or foul, he's on the job day after day to bring you the news.

Canadian newspapers recognize and applaud the fine work done by more than 75,000 newspaperboys from coast to coast. These independent young businessmen are building for a bright, promising future.

One of the great things about Canada is Canada Savings Bonds, One of the great tuning about Canada is vanada Savings bonds, and this year's Series is the most exciting yet. Interest starts at 5%% a year—the highest starting rate ever on a Canada Savings Bond—and goes right up to 6%. Over the 13 years to maturity the true average annual yield is 5.48%.

Best of all, Canada Savings Bonds have a wonderful compound interest feature which pays you interest on your interest. Take full advantage of it and you will double your money.

As always, Canada Savings Bonds are instant cash. They may be cashed at any time for their full face value plus accrued interest. They are easy to buy for cash or on instalments. They fit all savings budgets—from \$50 up.

And, for the first time ever, Canada's most popular personal investment may be purchased by businesses, churches, charities, ethus, and other organizations. Another first: the limit per holder for this Series has been increased to \$50,000.

Backed by all the resources of Canada, Canada Savings Bonds are a great way to save. Buy yours foday and double your money.

Buy yours today—where you work, bank or invest.

Expo Security

With October 29 and the final day of Expo a Sunday — not far distant, the exhibition and city authorities are preparing for all sinable pieces of pavilion property in the guise of "souvenirs."

In the early days of Expo, staff of the various places of refreshment — including The Buildog, Britain's contribution to La Ronde, and the German beer garden, reported the loss of hundreds of mugs and steins.

Expo authorities are now guarding against theft of even more valuable items. One Exposurements are now guaranteed to the thet of even more valuable items. One suspects the final weekend of Expo may be a combination of things, none guaranteed to give any peace of mind to the security people. Excitement, tension, a carrival atmosphere perhaps . . . all these things will surely be "memph."

For one thing, the immigration depart-For one thing, the immigration department in Ottawa says it expects some defectors from the staff of Communist pavilions when Expo closes. "You have to expect defections at any international gathering like this," said a department official. Estimating there might be as many as a dozen, he said defections must be any time a large group of pen nmunist countries get a chance to

To the Expo employees the island sites on the St. Lawrence have been "home" for six months. It will not be surprising if some decide to remain in Canada.

Island Problems

"No man is an island," said John Donne many years ago. Donne was an English poet and cleryyman who died in 1631 at the age of 58. His werse is eloquent of the problems that go with solitariness, of the fact that even life on a remote tropical isle can be a weariness of the flesh if it lacks the stimulus of civilization

r just plain "worldliness."

However, Islands are in the news these are and as imight be expected the headlines are are making have to do with the perennial usiness of getting-away-from-it-all.

business of getting-away-from-it-sail.

For instance, there is discontent in the Orkney Islands off Scotland's far northern coast. A few young rebels in the islands are urging their fellow residents to break from Britain and seek home rule under Denmark, 450 miles across the North Sea. And they are asking the Shetland Islanders to the north of them to do likewise.

them to do likewise.

The Oreadians are said to be dissatisfied with neglect of their problems by Westminster, and by the local authorities on the mainiand — and particularly with a proposal to amalgamate with the mainiand county of Caithness for purposes of water and police services. As to joining up with Demmark, some Islanders believe their ethnic roots are more Scandinarian than Scottish.

ndinavian than Scottish.

Here is separatism, Scottish style, and of race it should not be forgotten that Scotland per has its nationalists who would like to the whole country govern itself.

A short while ago it was the Lile of Man which was the scene of some deflant dealings against Westminster by the Manx parliament. Britain had decided to ban pirate radio stations operating from vessels anchored off stations operating from vessels anchored off the Isle of Man. This led to protests in the Tyawald (Manx parliament) and even suggestions that the island lying between Ireland and England might seceds from Britain.

And from the Isle of Man to the remote Seychelles, midway between India and Africa in the Indian Ocean. That is where Kenneth Pastore, 20, a former Wall Street clerk was headed when he stowed away aboard a U.S. jet

Although Pastore was put aboard a return

Although Pasione was put about a return flight after gettings after as London, he says he will get to the Seychelles somehow. Explaining that his seekleng all is 'in common with nature,' he said: "I don't want to live in New York. I don't go in for this energiary they gow me a seat on the exchange."

If he makes it to his farway islands, Pasione may find, as have others before him, that communing with nature can become a bore after a while. Blow to Nova Scotia

The Dominion Sited and Coal Corporation's big steel mill at Sydney, Nova Scotia, is as grim looking an edifice as anything of its kind. But it has been bread and butter to no fewer than 3,000 Nova Scotians and a key

operation in a pròvince afford to sustain such industrial loss, whether in terms of manpower and production, or of earning and purchasing ability.

e the closing of the plant has been a possibility for some time, the suddenness of the announcement came as a surprise. Only recently the plant carried out a modern-Only recently the plant carried out a modern-nation program, so this blow is all the harder to employees who saw in this an indication the big mill planned to stay in business. T. J. Emmert, president of Desco, in a statement, reported losses before income tax

adjustments of \$4,300,000 in 1966 and \$6,400, 000 in the first six months of 1967. He blame high production costs and the non-competitive geographic location of the 67-year-old mill for

the shutdown.

All in all the outlook for the Cape Breton industrial region is bleak. The coal industry there is also being phased out. According to Mr. Emmert, the steel mill will cease operations at the end of April next year.

Talks have been scheduled betw npany representatives and members of the federal and provincial governments. It would have been more politic if the company had appraised. Ottawa and the provincial nistration of the situation earlier.

However, the losses mentioned by Mr. Emmert speak for themselves. Cape Breton faces difficult times, but it is clear its location naces current times, but it is clear its location and the virtual obsolescence of such fuels as coal are against it. If the immediate future looks bleak, a more modern Maritime industrial region will surely rise from the eds new ideas, new plants fresh enterprise in Nova Scotia as it does in any of its far-flung regions. It is poor economy in these changing times that a region should have to depend on only one or two products, as in this case of Cape Breton with its coal and steel. Diversity must now take their place, with an eye to the technological progress that this country is now embracing.

Children Who Suffer

Children are among the most resilient of people. Moments and experiences that may be either joyous or disastrous they handle with equal aplomb.

But parental support and discipline — as well as an indispensable sense of security — are qualities they cannot do without. Thus, it is all the more poignant when society is con-fronted with occurrences that place childrens' well-being in jeopardy.

Introducing: The snow tire that's all bite and no bark.

It's a whole new animal. All teeth and no annoying thump.

The teeth are in the new tread design—called

the interlocking double "s".

This is a special new tread design that has more biting edges and deeper grooves to chew through any kind of snow, slush or mud you'll

There are even places for over 100 safety spikes for extra traction on ice.

You can tell it's fierce just to look at it.

Yet you never get the feeling you're riding on a square tire. Even when your car sits out overnight in the coldest weather.

Because of Vytacord, an incredibly strong polyester cord that gets rid of a lot of the problems that other snow tires have.

Besides keeping the tire round, Vytacord practically eliminates cuts and impact breaks in both the tread and sidewalls.

Vytacord cuts down rolling resistance and gives you better gas mileage.

And Vytacord holds the tread flatter on curves and when starting or stopping. This means there's more tread on the road. And that means you're biting in just that much more

It gives you a feeling of control over your car that you've probably never felt before.

All these gripping features cost under three dollars more than an ordinary winter tire. Why don't you get the new Goodyear Subur-banite with Vytacord.

See your Goodyear man.

The new Goodyear Suburb with Vytacord. GOOD YEAR

Potter Victory Takes One Hour

By MAURICE SWITZER Staff Reporter

The taste of victory came quickly and convincingly to Dr. Richard Potter last night. In his initial provincial political campaign, the Progressive Concernative candidate captured Quinte within an hour after counting of ballots began in the 180-equav-mile riding. A plurality of more than 4,000 votes quer Liberal Donald Joss supprised even the staunchest Tory backers in the area.

The Conservatives have been re-elected in
Ontario, maintaining their unbroken record of
more than two decades, in power in Canada's
richest province.
The Robarts Government had sought
re-election in a province that is eajoying
unprecedented prosperity and which bids well
to produce more of the same.

The alternatives to continued stability and to produce more of the same.

The alternatives to continued stability are the unknown political quantities represented by the Liberal and XDP parties. Throughout the campaign it was evident both Opposition parties were struggling to find issues of any real consequence.

parties were strugging to find issues of any real consequence.

The Ottawa Journal, in a pre-election editorial, suggested Premier Robarts was right in suggesting the real election issue was, "Who is best able to look after the affairs of this

province?"

"After the inevitable shortcomings of any government are ticked off," said The Journal, "it still comes down to deciding if the alternative gives any promise of doing things any better..., The Tories have been in office a long time in Ontario, but when a voter looks about him and sees what he might be changing for, the theories can stay in the political actence.

"It's buriness as usual at the same old stand," lift. Robarts said Tuesday night when it became clear his party would win a substantial but reduced majority.

The first item of business: At-tending the awearing in cere-mony loday of Supreme Court Justices George Gale and Dal-

Justices George Gase and Lion Wells.
The Cabliest, which lost two ministers, meets Thursday.
Mr. Robarts had no trouble winning London North a fourth time even though he campaigned only one day in the riding.

The Premier spent most of the time from Sept. 5, when he announced the election date,

campaigning in almost all of the other 116 ricings on behalf of here few party officials ex-

we care

(AND TO THOSE WHO NEVER HAVE SHOPPED A-P)

You may have heard about the "new" A&P. You may even have read about how "We Care...about you."

Well, everything you've heard and read is true. Your local A&P is a great place to shop.

Here's why. We took a good hard look at ourselves. We analyzed our 40 years of experience. We made a check list of the things

that made A&P one of the leading Food Stores in Canada.

Then, we decided to look for ways to do them even better. We redoubled our efforts to make

A&P a friendly, dependable store to shop, to prove, "We Care ... About You."

If you've been away, come on back.

If you've never been an A&P shopper, give it a try. You may discover it's fun to be cared about.

Cuban Propaganda

Cuba is reported to be beaming French-language broadcasts to Canada inciting French Canadians, Indians and Metis to revolt.

Canazians, induars and Metis to revolt.

This is a matter that should give cause for concern in Ottawa which, unlike the United States, trades with Cuba and maintains an embassy in Havana. External Affairs Minister Martin says if the reports are confuded representations will be made to the Cuban

Government.

Word of the shortwave broadcasts came from Robert Thompson, Social Credit member for Red Deer, Alta. He said the last one is heard included instruction in guerilla warfare based on a book by the late Ernesto (Che) Guevara, killed recently in Bolivia.

Mothers Emulate Daughters

A three-month school vaca-tion for youngsters m a de-sense in a rural society, when help was needed with the crops; today, mur crowded schools should be operated on a 12-month-per-year b as is, with staggered vacations of ene month, on a rotating basis, for pupils and teachers.

Thoughts at Large:
When I was growing up,
daughters wanted to put on
long dresses and look like
their mothers; now mothers
want to put on short dresses
and look like their daughters.

Those who venerate the com-puter as against the human brain should know that if a computer were devixed with all the billions of cells and con-nections in the human brain, it would have to be as large as the whole carth.

One of the nulsances we may anticipate with the coming su-perronic age of travel is that it will be quite impossible to have a distant relative.

Unless a child is taught early to compete within himself— that is, to use his energizing part against his natural forces or inertia—it is idamaging to encourage him to compete against others, for he is burd-ened with a tremendous han-dieap and is not competing on fair psychic terms.

OTAWA (CP) — Solicitor General Pennell set the stare five another parliamentary de-bate and free vote on capital poundament Thursdy as he introduced a government bill reserving the nonce for nunderrar of policemen and prions quards. It will be the excess Commons debate in two years on the question. In a femine-little de-bate in April, 1966, the Commons debate in A

mons rejected a private bill calling for abolition of hanging of all murders. The present bill will have got all meaning for 18 Canadisan characteristic control of the canadisan control of the can

period.

In that time, too, no person serving life sentence for murder or as a minimum sentence would be released without the approval of the cabinet.

The death penalty now is imposed on persons convicted of

piracy.

Mr. Peenell shed tears when the Commons voted to retain capital punishment last year, said Thursday it was the povernment's intention to call a free vote on the issue.

A free vote also means the governmened is not raking its life on the options.

Problems of Youth

In a world so wast and varied and interesting as this one, there is something patently ridiculous about the lastitude and boredom and fringe lunacies such as drug addiction that

grip so many of the younger generation today.

Of course the kids want to be where the action is — and there is not all that much action in Belleville of the kind that interests goods in Selective to the annual man interest, young people. Yet, it is not entirely lacking. There are movies, monthly travel films at the Collegiate, an excellent library, a growing interests in the Arts, night classes at the schools, the facilities of the YMCA, hockey, tennis and golf in season.

tennis and golf in season.

Sill, the young are restless. There are two clubs for teens and one has been in the news with a raid by police seeking narcotics. They found nothing and this is encouraging, although there have been runnor of marijuana, being distributed in the Quinte area. But let's keep things in perspective. ROMP officials in Toronto recently reported narcotics were becoming a rogine problem with young coming a growing problem with young opin. Here in the Quinte area, however, it peaks to be negligible. Believille police idenly-bad been given information that a unungster with dope would be on the clue emises. As we have noted, nothing was found.

Mayor Ellis meanwhile has promised investigation into allegations by the teenagers that the police damaged furnishings in the club and that 13-year-old girls were "frisked" in the course of the search. Belleville has no women police, but here was an occasion when it would have been politic to have employed both male and female officers.

'empioped both male and female officers.

Mr. Ells says he is working on a plan to establish a club for young people. This is all to the good. The teens themselves can either make or break such an establishment. However, there is no reason to suppose that the members of the other clubs generally have behaved other than with decorum.

There are so, many things for resulting the property of the control of the clubs of the clubs.

There are so many things for creative midst to do, opportunities for individuals to contribute something to their own future and that of the commandity. It is a pilly perhaps a contribute of the contribute of t There are so many things for creative

to local plants to see what goes on there.

"People live in holes like rabbils," someone has said. "They never realize that the word is vast, full of variety and resources." Anyone who saw the Ontario Government film at a local theatre this week, and noted the incredible energy and creativity and variety of human activities that daily make this province hum, would realize the truth of that statement.

The Church's Role

Ine Church's Role
The flesh... and the devil. For long these

Many and worms the Church, id disposaring

More and more the church is discovering that to fulfill its mission to humanity it has to be worldly, and that this concept is not necessarily synonomous with the aforementioned flesh and the devil. It means simply hat where people are hungry, they should be ed, where they are loaely they should have he warmth of human affection, where they are grieving they should be comforted. In short

are girering they abould be comforted. In abort where people are in extremily of any sort, society as large, and the Church in particular, should not be found wanting.

The Rev. J. R. Hord, secretary of the board of evangelism and social services of the United Church of Canada, put it another way in a recent address in Hamilton. The Church. be add, will be rejected unless it concerns itself the bread and butter issues of people's the control of the con

He said the church must become deeply wolved in the political process, he ling copie to organize to demand better urban lanning and renewal and to get adequate ousing, cultural, educational and recreational

Mr. Hord envisages the Church providing programs for culturally-deprired children nursery schools, after-foru activities for children of working mothers, gym activities, parents-without-partners clubs and senior citizens clubs.

"There will continue to be services in the sanctuary, but there will also be house churches, small group activities around work to leisure, drop-in youth centres and collee

houses." These and many other ideas are being put to work by churches of all denominations. Some may be embracing the new concepts quicker than others, but the point is they are quicker than others, but the point is they are not the social revolution than increasing in face of the social revolutional, practices of Caristian-lly, Rather the Christian Church today is becoming more "worldy," more an integral part of the social stream, more related to the seeded of humanily item.

"Supposing I shot and wounded a dec and it get away. Along comes another hun-tr and administers the coup-do-grace. Which hunter claims the deer?"

The dean of the session, a silver-thatch-ed veteran of the northern runways who ex-changed his Boer War fouling piece for a pump-gun, rubbed a stabbled chin and said:

"There's an ancient law in English that says the huster that stops the quarry in the rightful owner, and can lay claim to the car-cass. I think there is something to that ef-fect in our hunting rule-books."

Such instances could happen this season which apens November 6th through 18th nearth of Number 7 Highway; November 6th to November 11th south of this highway with an archery season the same week nouth of Highway 401.

"I believe," he said, "that if the weather is good, hunters will bring bone a much lar-ger kill. Last year, if you remember, the raths were a hig factor and atthough the deer were there, the hunters stayed inside."

The deer herd this year, Mr. Bittle pointed out, is in a healthy condition and offers a hetter harvest than last year.

offers a better, harvest than last year.
"If we have from 29,000 to 22,000 hun-ters this year, we can expect a 5,000 to 5,000 deer return in the Tweed district. We, know this from a constant check of the deer popu-lation. Besides the deer range is in a fairly healthy condition," he said.

The Land and Pereit Department, the The Land and Pereit Department, the efficies land, is pleasing to spend a bit of money in Improvement on the efter range (the habits of the deer). Surfrier (this fill likes is plaused, in fact suppling of the yards is almost completed.

So now, it seems, with a good deer har-vest awaiting the oaslaughts of the hunter, success of the season depends a whole fot on the whins and vagaries of the weather man come November.

Unbeaten Bruins Tangle With Canadiens In Top-Spot Battle

Montreal Canadiens may face their major test of the National Hockey League's early going to-night when they meet Boston Bruins in Montreal.

Bruiss in Montreal.

After the Canadiens held on for more than 54 minutes to gain a 1-0 victory over Toronto Maple Leafs Thursday night, coach Toe Biake said he was satisfied with the Montreal defence for the first time this sea-

Forum tonight.
Instead, the Bruins have become the socurge of the Eastern
Division, winning three and
tying one of their games so far
and sharing first place with the
Canadiens with a game in hand.

The Bruins have scored 23 goals and given up just 10 in those games while the Canadiess allowed the opposition only 11 goals, have managed just 13 themselves.

just 12 themselves.
Yvan Cournoyer, the power-play specialist who beat Toronto Thursday, is Montreal's top scor-er with five goals and four as-sists second only to the four goals and seven assists of Bos-ton's Fred Stanfield.
But while the Bruiny also have John McKenzie, Phil Espo-

and three assists.
Blake says be plans on using rookie centure Jacques Lemaire, last year with Houston of the Central Professional/League in place of Michery Reimond and activate Gary Monahan as his extra man.

Thursday,
The Fiyers will have defenceman Larry Zeidel dressed. He
was purchased from Grevelind
Barnos of the American League.
The Maple Leafs cominue to
have trouble getting defences
man Larry Rillman to sign the
contract and coach Panch Imthe has suggested that if he
deem't come to terms soon he
may be tradely.

One of the great things about Canada is Canada Savings Bonds, and this year's Series is the most exciting yet. Interest starts at \$5.4% a year—the highest starting rate ever on a Canada Savings Bond—and goes right up to 6%. Over the 13 years to maturity the true average annual yield is 5.46%.

Best of all, Canada Savings Bonds have a wonderful comp interest feature which pays you interest on your interest. Take full advantage of it and you will double your money.

As always, Canada Savings Bonds are instant cash. They may be eashed at any time for their full face value plus accrued interest. They are easy to buy for cash or on instalments. They fit all savings budgets—from \$50 up.

And, for the first time ever, Canada's most popular personal investment may be purchased by businesses, churches, charities, clubs, and other organizations. Another first: the limit per holder for this Series has been increased to \$50,000.

Backed by all the resources of Canada, Canada Savings Bonds are a great way to save. Buy yours today and double your money.

Buy yours today—where you work, bank or invest!

A Woman's Work...!

In a local contest to find the oldest working washing machine, an official called at the home of Trevor Wells in Cranfield, England, and asked to see the m "Mother."

"Mother."
"You're looking at it," said Wells' 57-yearold mother, Annle. "I do all the washing here."
The official explained he was looking for
a genuine machine still in use.
"I'm genuine and I'm still being used,"
Mrs. Wells said.

The official apparently wasn't amused, owever, Mrs. Wells' name has been forwarded

Doubtless the contest organizers had not bargained for such an entry, but it does go to show that the age of the machine has not taken over entirely. Individuals still count.

turns tractor power into work power... the new FARM HAND TRACTOR TIRES

SEMI-ANNUAL LAST LENGTH

SUIT SALE

SALE \$79.50 TWO SUITES for \$150.00 OVERSIZE EXTRA

All the things you need in a tractor tire are yours in the Farm Hand, long wear, sure traction, floation and above all, dependebility. Quality makes the difference! High quality, high tenacity cord with a special "obcompounded" tread give you the tough, resilient, non-tearing qualities you must want in a tractor life — your best insurance against coatly "doen time." Your Farm Hand is guaranteed not only for workmanship and materials, but against accidents to the tire — proportioned over a four year period.

LOOK AT the rugged tread design—self-cleaning with scientifically spaced cleats to assure maximum bite and still provide rolling area for hard surface.

LOOK AT the wide tread, ample flotation, square shouldered cleats, buttressed deep into the sidewall. Notice the sharp grip-ping edges that dig in and hold – turn drawbar power into work power.

LOOK AT the depth of the tread. You can almost feel it grip. Here is year after year of dependable field service, everything you want in a tractor tire. WE HAVE LOADING AND INSTALLATION SERVICES

Housing and Foreign Aid

Housing in Sanada today is falling to meet the needs of Canadians on two fronts. First there is a shortage of homes in relation to the needs of a growing population. Secondly, the cost of new homes is beyond the reach of great numbers of young married couples, particularly those with families.

These are matters of urgency — the provision of more housing units and at reasonable cost — and the Government has a duty to tackle them on that basis. Nor should it be diverted from this task by suggestions that Canada might add housing to its foreign add you make the control of the contro ald programs.

"And if he thinks six games is a winless mark for the Chicago club, it shares the mark with the New York Rangers of 31 consecutive losses from Decem-ber 17, 1850 to February 1st, 1851."

"And if he wants to go back a Hitle farther, re-mind him that the Hawks hold the mark for being shut out eight consecutive times. That was in the 1927-28 seasons."

"On the other side of the ledger, tell him that Hawks own the record of having the three fastiguals ever scored in the league. These came from sidts of Bill Besiehns against New York on rich 12, 1932. Mory scored at 6.09 — 6.20 and 6.30 the third period."

"Bobby and Dennis Hull, I note, disagreed with m and warned that the expansion sextette would see a lot of trouble to some of the eastern giants, if that is just what is happening, so far at least."

"And what isn't happening thus far — and far m it — is the prediction there would be a rash high-searing records in the eastern accrebooks at expense of the expansion division."

"They said fifty-goal scorers would be com-mouplace: games between the division will be more or less jokes and the Stanley Cup playoffs will be a farre."

"They are not going to play Chartle McCarthy to the sastern Edgar Bergens," Booky said, "They are not just there to play the fool in front of their own -fami just to appease the experts. They are not going to play the role of beyn because their reputations do not match those of the sastern mighty."

"They pose quite a challenge." Bobby said, "and theyre not going to spect it lightly."
"Tell your boat." said the said, "to stipe the misty years from his eyes.—or leave them there until the Argonaut mow down the Rough Riders and go on to train the Grey Cup. Chicago will hit its stride some of these days and make it toop for somebody."

New Brunswick Vote

The return of the Liberal government to power in New Brunswick is evidence that the people of the province for the most part are attisfied with the administration.

satisfied with the administration.
There is a parallel here with the recent
Ontario election, except that here it was the
Conservatives under Premier Robarts whose
record of achievement won the day. Similarly,
New Brunswickers are satisfied with what they
have been a Liberal government in power
gince 1960. Prior to that the Conservatives had
been in power for adult here also.

The Government suffered losses nevertho-less, including three Cabinet ministers, while the Conservatives picked up a number of seats. There are 32 Liberals in the new House, the same number as before, while the Conservatives are fielding 25 members compared with 20 before

Vietnamese Pilots Outkill Americans in Two Month Period

distioned Tuesday that North Vietnamese MiGs outkilled U.S. jets six planes to two during a period running from late August to mid-October. to mid-October.

This reversed the better than
3-to-1 ratio in aerial kills scored
by U.S. pilots over North Vict-

and marine jets to attack the important Phuc Yen airfield 18 miles northwest of Hanol. Over-all, the U.S. flyers still-claim as 98-38 advantage over-the North Victnamese air force-in which U.S. defence depart-ment figures leave off.

American flyers returning from the war nose have been telling correspondents of the growing professionalism of the North Vietnamese air force. The defence department said that between July 1 and mid-Oc-tober, U.S. planes shot down

hat.

In six weeks encompassing September and the first two weeks of October, the department reported, 78 MiGs took to the skies to challenge American

nombers and covering Righters.
The attack on Phile Yen leaves one jet-capable airfield atill untouched by American bombers—Gis Lam, Hallon's international airport, just across the Red River to the sast of the North Victnamese capital.

Timid types, that's who.

It's funny what you hear about Mellow 83. Like, it's the whisky for old fogeys. Or, only timid types drink 83. We know different. All kinds of people are drinking 83 these days - and for the best of all reasons. They like the mellow, mellow way it tastes. Who are these individuals? Well, they weren't born in 1883. And they cartainly weren't born yesterday.

Pollution

Pollution more and more is being reognized for the dangerous threat it is to the elfare of Canadians and to generations to

The general feeling now is that pollution wels, while giving cause for concern have ot reached their peak. It has been said if it acreases to affect the air we breathe and the food we say, pollution could become a very serious menace. By the year 2,000, authorities say, it could be a threat to life itself. Even now it is giving rise to increased respiratory trouble among people in big cities, particularly among the old.

the old.

Anti-pollution measures are being taken on a number of fronts by both Ganada and the Uniled States. The U.S. Corp of Engineers, for instance, has a plan to dam the Niagara river and half the flow of water over the American fails. It is hoped to determine the degree of pollution in the river from examination of the river bed.

city "a sort of utilimatum." As a result Hamilton will start building the second stage of its sewage treatment plant in 1969. Controlling politition may be an uphill battle. The problem is part of the price we must pay for industrialization, but it is one that must be tackled with all the resources available before it reaches the even more serious levels currently being mentioned in discussions on the subject.

Beyond Expo

Mayor Jean Drapesu is right in describing to in terms of a haman experience. The ples of the world — some 50 million of them peoples of the world — some 50 minion of them have come together over the past six months in Montreal and been enriched by it.

Expo has become "a site where all the
people can be and feel above all the unity of
humanity." It was not the buildings or the
exhibits that alone made Expo a necess
Rather, it was the highly applicitual climate
which, the Mayor said, made each individual
forget his race, his color and his differences
and become just a human being.

Or, as we noted in a recent editorial: "Expo is a great healer, a great banisher of boredom, an inspiration to mind and spirit."

And now the great exhibition is almost over. Yet while it must come to an end on Sunday in accordance with international fair rules, its continuation in some other form now

seems assured. That is what the Mayor was discussing when he visited Toronto recently. He told a press conference there that Expo's uniqueness would place it outside competition with Toronto's Canadan National Exhibition. He clented the site was to be used for a trade fair, Toronto's Canadan National Exhibition. He clented the site was to be used for a trade fair. The loss was in or a wird wars stampede. the difficulties take care of themselves.

It is a pity Toronto cannot bring itself to show more enthusiasm for the exhibition's continuation in one form or—another. A draft plan for the recording scheme was completed Wednesday as 220 delegates wound up a three-day conference to deter-

ative performances or can, herds, taking information on milk production, milk content, general herd production, and herd history, all of which is col-lected in a central depot and avaluated. The information

their operations by increasing milt prices, he said.

A nationally co-ordinated recording rehene would result in greater milk yield because of better management decisions the dairymen would be able to make from the tests.

Mr. McLanghlin and

reflected the new approach of reducing coats through in-creased farm efficiency. It meant a profit margin not solely dependent on price in-creases. A Daily Farmers of Canada committee will study the plan draw up by the farm-ers, government officials and

Duo Pianists Delight Crowd

One of the great things about Canada is Canada Savings Bonds, and this year's Series is the most exciting yet. Interest starts at 54% a year—the highest starting rate ever on a Canada Savings Bond—and goes right up to 6%. Over the 13 years to maturity the true average annual yield is 5.48%. 6% Annual Best of all, Canada Savings Bonds have a wonderful compound interest feature which pays you interest on your interest. Take full advantage of it and you will double your money. As always, Canada Savings Bonds are instant cash. They may be cashed at any time for their full face value plus accrued interest. They are easy to buy for cash or on instalments. They fit all savings budgets—from \$50 up.

And, for the first time ever, Canada's most popular personal investment may be purchased by businesses, churches, charities, clubs, and other organizations. Another first: the limit per holder for this Series has been increased to \$50,000.

Backed by all the resources of Canada, Canada Savings Bor are a great way to save. Buy yours today and double your mon

Handsome new decanter. Smooth, light flavour.

Now you know why Hiram Walker's **Gold Crest** is the hit of every party.

When a whisky is as

smooth as Gold Crest, you've got something good going for you. Because everybody likes it. And since a whisky like this doesn't happen very often, we've decided to celebrate this Centennial year by putting Gold Crest up in a new kind of decanter. Tall and cylindrical. Clean, clear, and slim. With a cut glass sunburst in the base. It lets you show off just a bit. Because it looks great, light. It's the kind of whisky that goes well at any kind of party. Try it at your next party and see. Gold Crest. The Party Whisky.

Hopes Lessen for Mid East Settlement

OTTAWA (CPI-she Dietro-bare and Prince and P UNITED NATIONS (CP)— Hopes for an early agreement on a Middle East peace formula grew fainter today as the 10-member United Nations Secu-rity Council remained dead-locked over the question of new Israeli Frontiers.

India.

The Canadian-Danish proposal
would have the council call for
the withdrawal of Arab and Is-raeli troops to "secure fron-tiers."

Israel was understood to pre-

tions before making any with-drawals from the Arab territory. It conquered in the June war. The incitian proposal called for a pull-back to positions held immediately prior to the outbrake of fighting. But the Latin American council members, Argentina and Brail, found this uneceptable, said diplomatic sources.

Heard about the new recipe for a real sponge cake? You horrow all the intredients.

Danish Foreign Minister Hans Tabor who presented the Cana-dian-Danish proposal, told re-porters both formulas were "balanced."

But he said he could not se sufficient agreement on the issue for at least a week or 10

Government Control

Government Control

A proposal by the Government of
Baskatchewan to-agume financial control of
the provincial university is running into strong
opposition from faculty members. Not unnaiunity, they see in it a threat to anumber
of redignations if the measure goes through.
The Government Minister concerned,
Finance Minister J. C. McIssac, made a rather
membrahes statement when he said he could
not understand the faculty members' underly
opposition of the control of the
forements and academic freedom.
The university people thought otherwise,

Government and academic freedom observise, reuniversity pools thought of the control of the cont

scademic spheres of teaching and research.

But the truth of the matter is that
Government has become the principal source
of university revenue, as Queen's University
principal Dr. J. A. Corry pointed out recently,
At the fall convocation he described the
universities as becoming completely dependent, "... giving the governments enormous
leverage on the universities if they chose to
use it."

Dr. Corry said universities can no longer fend off an "interventionist public opinion merely by pointing to the long-standing custom of "laisset-faire" which has allowed them to teach and study what they like in whatever ways seem best.

whaterer ways seem best.

However, he pointed out: "Like all bodies whose service it is to seek the truth, they need the freedom to do their own work in their own you." The universities may be dependent on the State but the greater collective organizations of our day, including governments, are dependent on the universities.

The subversity principal concluded with
an observation that is relevant to many
situations, in the context of the university
scene as in other spheres. "Freation is fruitful,

I am informed that the Toronto radio and levision stations carry little or nothing more senior "A" hockey than the results of ages games.

These councils cover and administer the huriness of their divisions and make their own decisions. But, and I got this from one Bill limity secretary-manager of the ORA — all council decisions are subject to ratification by the ORA executive.

Then one or more of the knights had a illiant" idea.

To just to let them know our hearts and sinds are in the right places, we will allow such and every player in the league to sign an Hidavit to the effect they agree to abide by il decitions made by the council. A sort of saving the beath affair.

Nine good knights and true hushed the sabre-ratiling, stood erect and supported this motion. The remaining variet sat there, a loos negative. Beneath his breastplate he were the vestments of the Belleville Mo-Hawks.

Later he refused to abide by the council dictate that the affidavits he signed by the players and attached to certificates filed with the OHA.

The indignant Knights went into special nection. They intended to punish this variet who dagesidely their edict.

At an earlier meeting the council adopted a motion to stabilize a player salary-level. Not more, not lext. And thereby hangs the Tale of the Affidavits.

Affidavits.

At the nine-man jury trial, the "lack of blicity" was forgotten. No members of the us media were allowed to "alt in".

The Canadian Press asked for a statement was referred to — guess who? — the gats who made the more-publicity motion, answer "No decision was made".

The "deliquent" Mo-Hawk was told that if a affidavits were not forthcoming within ten ys, his club would be fixed 3300 and ferfeit points in the scoring column.

Where was this so-called council publicity committee? Surely it would like the ho-key world — especially senior "A" — to know how they dealt with those who dared defy their

Reviving A Buddy

A member of the U.S. 1st Marine Division tries mouth-to-mouth suscilation to revive a wounded, buddy as other Deathernecks gather round. The incident took place when the troops were pinned down after using through a North Vietnamese army camp on Operation Medina. Marines were operating about two miles south of Quang Tri, 19 miles south of the demilitarized zone. Three Marines were wounded in the first part of the operation before one Communist was killed. One of the great things about Canada is Canada Savings Bonds, and this year's Series is the most exciting yet. Interest starts at \$50% a year—the highest starting rate ever on a Canada Savings Bond—and goes right up to 6%. Over the 13 years to maturity the true average annual yield is 5.48%.

Best of all, Canada Savings Bonds have a wonderful compound interest feature which pays you interest on your interest. Take full advantage of it and you will double your money.

As always, Canada Savings Bonds are instant cash. They may be cashed at any time for their full face value plus accrued interest. They are easy to buy for cash or on instalments. They fit all savings budgets—from \$50 up.

And, for the first time ever, Cauada's most popular personal investment may be purchased by businesses, churches, charities, clubs, and other organizations. Another first: the limit per holder for this Series has been increased to \$50,000.

Backed by all the resources of Canada, Canada Savings Bonds are a great way to save. Buy yours today and double your money.

Buy yours today where you work, bank or invest!

In other words, the young person who puts in so much time seeing movies or waching television is avoiding the responsibility of developing his own mental powers.

John DeWitt chose London Life because of good dividends

(In fact, he can double his money with his Jubilee policy!)

JOHN DEWITT of Dorchester, New Brunswick, has an un-usual hobby. Breeding and raising cattle.

"I've raised cattle ever since I was in school. I started out with three beef cattle on a neighbour's farm when I was 14. "The land around the Memramcook Valley makes good pasture. It doesn't dry up in the summer and there's lots of salt in the soil."

John spent five interesting years in the R.C.M.P. but decided be drather be a businessman. He is now in his third year with the district sales division of General Motors in Moneton.

"I had group insurance, but when I married and started to build a home I felt I needed life insurance of my own. However, I wanted a policy that had some return to it. A

"I knew London Life was a well-established company, so when a representative called, I invited him down one Saturday. I took him out to show him the cattle and we discussed life insurance.

"I'd checked up on other life insurance proposals and I
thought the London Life Jubilee policy he recommended was
a good one for family protection—and a good way to save."

Here are the facts about John DeWitt's \$15,000 Jubilee

Here are the facts about John DeWill's \$13,000 Jubinee life premiums to 65 policy, purchased at age 23. The premium is \$20.49 monthly. By age 65 he will have paid \$10,327. Included in this total is a small additional amount for disability protection. London Life would pay the premiums if Mr. DeWitt is unable to work due to prolonged sickness or.

accident. If he leaves his dividends to accumulate until age 65, he will be able to take out \$26,070°. More than double the money he paid in!

"One reason why I want good dividends is that I'll be saving money for my young son's college education. I intend to buy more life insurance as time goes on and my farm develops and my business career progressed.

"It would be hard to find a better way to get protection or your family—and make money into the bargain."

To find out if you can double your money with London Life, talk to a Company representative. And send for a free copy of the handbook "Plain talk about life insurance." Write to Department U, London Life Insurance Company, London, Ontario.

*This figure is made up of \$10,080 in guaranteed cash value and the balance in accumulated dividends based on the Company's current scale.
While dividends are not guaranteed, London Life for years has had one of the most outstanding records of dividend payments in North America.

Get a fresh start with a clean slate loan

You can erase money worries from your mind with a Pacific Finance Clean Slate Loan. A PF loan may give you the cash you need to pay off your bills right now. Then, when you get your loan, all you do is repay Pacific Finance with one lower monthly payment stretched out over a longer period of time. This means you'll actually have more money for yourself each month.

So chalk up a victory over your worrisome bills. Give your Pacific Finance manager a call today. If you call first, the money may be waiting for you when you come in.

United Appeal

Today's report on the lils of the Believille United Appeal make meianchedy reading. With the official four-week campaign over, only \$45,000 of the \$116,500 target has been reached.

been reached.

That the full amount, or a large percentage of it, may ultimately be reached as in previous campaigns, is recognized. A month traditionally is set saids for the funds to be collected, but it is discouraging that during this period, when everyone should be fully committed to the campaign, that the campaign is so far behind schedule. However, as the report suggests, the ahortcomings are now in the open and measures can be taken to revitalise the

campaign.

campaign problem is an old one — apathy.

Another is lack of communication between the organizing committee and agencies and vice versa. These are matters that should not be difficult to rectify.

A much earlier start by the organizing mmiltee is one measure that is felt to be cessary. At the start of the campaign a seting of representatives of each would be melicial, if such a gathering is not already

Where the public and contributing firms are concerned, a good example of communications is that afforded by arranging a needing campaign plans. At least one firm does that. As one member of the committee has put it: "Everybody should know long before September what they are going to have to do and how many people they will need to accompliate."

accomplish it."

Clearly, there is a need for a greater effort on the part of all concerned, for better communications, and most important for a sense of loyalty to the community, a recognition of the needs that are supplied by the npaign.

campaiga. The organizing committee feels "the campaign should be organized for 12 months and last one day." Certainly that is something the same of the committee of the committ agencies and public.

A New Vision

With the passing of Expo a vacuum has a created in the Canadian scene that must been created in the Canadian ascene that must be filled if the spirit and drive of this great exhibition are to be maintained.

Man is a notoriously inconsistent animal. By nature he is incapable of maintaining, or staying with, any one theme indefinitely. Evolution, in other words is a matter of constant renewal. Expo, for all its brilliance, was too good to last.

was too good to last.

Now it is the turn of the Japanese. Expo
70 is already in the making in the hill country

Meanwhile Canada is left with its vacuum.

And trisis something that is spiritual as much
as material. Whatever plans Montreal's Mayor
Drapeau has in mind for the Expo site — the perpetuation for instance of the Man and His World theme — this country as a whole needs a new vision to inspire it in the days ahead.

Philip de Gaspe Beaublen, Expo's director of operations, has spoken of the need for Canada to tackle some other great objective. He has mentioned the northland. Certainly o Arctic region offers enormous scope f

The difficulties of making such a region habitable thus far have deterred Canada from making any major commitment to the north country. The Russians, however, have shown what can be accomplished in its Arctic regions and there is no reason why Canada in time should not do likewise.

Until any such undertaking is started.
wever, there may be stresses and strains of
political nature. Prime Minister Pearson speaks of unity, but he does not sound too convincing. And there are indications French separatist elements are about to engage in a separatust elements are about to engage in a eampaign to take Quebec farther along the path of Isolation. They have admitted now that Expo is over that secession is their goal. Fortunately, there are other, more moderate voices in the province who realize that such a course would be ruinous for Quebec.

Still, as 1967 moves toward its close, Canadians look back on a period of greatness, and go forward in the knowledge that in 1967 the country discovered itself and its nationhood.

A great idea! Two different rooflines for Impala Coupes . . . from Chevrolet by design. Some Impala buyers want the spirit-stiring excitement of the fastback look. The Impala Sport Coupe is just for them. Other Impala buyers want the town car sophistication of a formal roofline. The Impala Custom Coupe is just for them.

Whichever style you choose, you'll come out way ahead with Chevrolet's 1968 out-in-front features such as:

Chevrole's quietest ride ever, Smoother riding, too, with newly engineered springs and shocks. Computers have been utilized to place body and engine mounts at precisely the right spots to keep road vibrations away from you.

Chevrolet offers you even better performance for '68. The stand-rd V8 is a bigger 307-cu.-in engine. And the new optional 250 orsepower V8 runs on regular fuel.

Chevrolet has more that's new all around. Hide-A-Way wind-shield wipers have an articulating left blade that sweeps a greater windshield area. In lignition Alam System buzzes a reminder not to leave your key in the ignition when you leave your car. And there's more. ... much more that's new inside and outside on Chevrolet for '68. Chevrolet's got it by design.

EVERY CHEVROLET HAS TO MAKE IT BEFORE WE MARK IT.
